felodesign.com

I am a passionate designer with love for everyday products and all things *Play*. I am fascinated by the many opportunities to design fun and exciting products that can improve and stimulate people's lives. Living in a multicultural city like Toronto has inspired me to travel and discover a vast array of cultures, allowing me to appreciate the diversity in the way we experience life. This exploration is often part my own creative process, helping me to design products that inspire imagination and wonder.
